WINTER

NEAR

WILL STAND BY MINERS.

Samuel Gompers Says Organized La-

NEW YORK, Sept. 13 .- Samuel Gompers, president of the American Federation of Labor, in addressing 2,000 persons who had gathered to attend a mass meeting at Madison-square Garden to-night in behalf of the striking coal miners, announced that just before starting for the meeting he had received a gift of \$1,000 to aid the miners in their struggle. The name of the donor was

not given. In a brief address Mr. Gompers said: "Let me say to you that the striking miners are putting up a fight which the American people should respect. And let me add that I believe that as time goes on we will come to admire the fight of the miners in the anthracite region of Pennsylvania. The miners can win, but we must make it possible for them to win. In order to do so they must have bread, and it is the duty of organized labor to see that they are not defeated for lack of that. If they were forced to yield it would mean a serious calamity to organized labor in every part of the country. In this fight we propose to stand by them regardless of consequences."

Conference Was Fruitless.

TAMAQUA, Pa., Sept. 13 .- John Fahey, of District No. 7, of the United Mine Workers, and Thomas Duffy, president of District No. 1, returned to the region this morning, after attending the conference with Governor Stone at Harrisburg. Both gentlemen refused to discuss the plan of settlement that had been submitted to them by Governor Stone. They both intimated, however, that the conference had been satisfactory to the officers of the miners' organization. Mr. Fahey said he thought Governor Stone is sincere in his effort to settle the strike. It was evident, however, that both the leaders were considerably crestfallen over the result of the meeting Local leaders here say they expect little

for New York.

bor Is with the Strikers.

CINCINNATI, O., Sept. 13 .- Judge Cochran, of the United States Court for the Eastern district of Kentucky, at Maysville, to-day granted a temporary restraining order against the Chesapeake & Ohio Rallroad from interfering with the delivery of groceries in the West Virginia coal fields. Suit was brought by Shaw, Irwin & Co., wholesale grocers of Cincinnati. The hearing for a permanent injunction was set for Sept. 30. Shaw, Irwin & Co., in their petition, allege that seven carloads of groceries recently shipped to the West Vir-ginia coal fields had been sent 300 miles beyond their destination.

Groceries Must Be Delivered.

Soft Coal Up to \$9 a Ton. CHICAGO, Sept. 13 .- The price of soft

coal in Chicago has risen to \$9 a ton, as compared with \$3.75 on Sept. 1. Anthracite is practically unobtainable, and is quoted by some dealers as high as \$25. The sudden advance in prices is attributed to the demand caused by cold weather, which, while not severe in itself, has aroused householders to a realization that their bins are

To Resume on Monday.

TAMAQUA, Pa., Sept. 13 .- The Greenwood colliery, east of here, will resume operations on Monday, it is said. No coal will be mined, the purpose being to run through the breaker the material from the rich culm bank which surrounds the place. The plant is operated by the Beddall Bros. but is controlled by the Lehigh Coal and Navigation Company.

PROSECUTOR FOLK IS AFTER BIG GAME AT ST. LOUIS.

He Says Directors of Corporations Who Are Guilty of Bribery Will Be Dressed in Prison Stripes.

ments in the boodle investigation were without special interest to-day. Two sessions of the grand jury were held, the witnesses examined being the same who had been before the body during the past few days. While no additional bench warrants have been issued since Tuesday at the instance of the grand jury, Circuit Attorney Folk feels satisfied with the progress made

thus far in the inquiry. The work before the grand jury to-day was put back somewhat by the preparations of the circuit attorney's office for the habeau corpus proceedings before the Supreme Court next Monday. To prevent the possible release on a writ of habeas corpus of the five prisoners now under arrest on the charge of bribery and perjury in connection with the city lighting deal, Circuit Attorney Folk to-night filed informations against all the defendants

charging perjury and bribery.

It had been expected all day that Delegate Charles C. Kelly would surrender himself to the circuit attorney, but he failed to appear, and none of the sheriff's deputies or the police force was able to find him. The refusal of Adolph Wallner, who had promised to go on his bond, to become surety finally for Kelly was the

reason for his non-appearance. Circuit Attorney Folk, in an interview to-night, said of a certain phase of the investigation in which he is engaged: hope when I shall have finished this crusade that the directors of wealthy corporations, who devote large sums of money to buy legislation, will realize that they have committed a penal offense. I have several of this class under indictment now, and a few of them in stripes will be a most beneficial example to the many respectable gentlemen who sit on boards of directors and deliberately vote to furnish money to debauch public officials for corporate gain at the people's

SITUATION IN COLOMBIA.

Panama Railway Menaced by Revo-Intionists Near Colon.

WASHINGTON, Sept. 13.-The State Department to-day received a cablegram from Consul Malmrose at Colon, which stated that the revolutionists were approaching that city, and expressing fears that the Colombian troops were not sufficiently numerous to safeguard the railroad. The dispatch was immediately sent

to the Navy Department. COLON, Colombia, Sept. 13.-The situation here is unchanged. The government is adopting stringent measures against the Liberals. The United States crusier Cincinnati is expected here to-morrow from Cape

Decree of Amnesty.

CARACAS, Venezuela, Sept. 13 .- The government has published a decree of amnesty in which guarantees are given to all revolutionists who within forty days lay down their arms. The government explains the decree by saying, "Now that General Matos (leader of the revolution against President Castro) is known to be the accomplice of foreigners by his promising control of Venezuelan finances to a foreign syndicate, no Venezuelan patriot can longer follow him."

Wickoff Will Go to Colorado.

PRINCETON, N. J., Sept. 13.-Prof. Walter A. Wickoff, of the economic department of Princeton University, has been granted a leave of absence to spend a year in Colorado, where he will study the social and labor conditions of the people of that State.

his future policy. The Council appointed Frank E. Little city attorney, William B. Prather civil engineer and W. J. Mitchell, M. D., health officer.

RELIEVED BY SHAW.

(CONCLUDED FROM FIRST PAGE.) 25 per cent. of cash to deposits of all the banks, including State and national, was not entirely wiped out there remained a surplus reserve of only \$715,075, the smallest since Nov. 18, 1899, when there was a deficiency in the reserve of \$312,028. The specie decreased \$5,818,500, and the legal tenders \$1,220,700, making the total loss of cash \$7,-039,200; the estimated loss based upon the traceable movements of money during the week \$7,362,100. The decrease of cash appears to have been wholly due to the subtreasury fiscal operations, which absorbed from the banks \$7,465,100. It is noteworthy in this connection that since the week ending Aug. 22 the subtreasury operations have resulted in a drain from the banks of \$17,-961,900, while the net loss to these institutions on the interbank movement in this interval has been \$6,959,100, and the transfers through the subtreasury of subsidiary coin alone have been \$2,699,600, making a total of the outward movement to the country banks directly and through transfers \$9,658,700, or \$8,303,200 less than the amount taken out of the New York banks through subtreasury operations. In other words, these absorptions for four weeks have been nearly 50 per cent, larger than the traceable movements to the interior. Still another striking fact is that the losses to the banks on the interior movement of \$9,-658,700 as above have been offset by within \$3,389,800 by receipts of new gold represented by assay-office checks against domestic and Yukon gold deposited at various points, which checks have been cashed in this city. "The loans were counteracted last week by \$6,875,900, making the contraction since Aug. 16, \$29,400,000. The deposits fell off \$14,628,900, a decrease since Aug. 16 of \$51,-500,000. The decrease in deposits last week was \$713,800 greater than the amount called for by the total loss of cash and the reduction of loans, hence the statement very nearly harmonizes. The required reserve was lessened \$3,657,225 through the decrease in deposits, which sum deducted from the loss of cash leaves \$3,381,975 as the amount of the reduction in reserve. The surplus now stands at \$715,075, against \$7,110,550 at the corresponding date a year ago, and \$20,835,175 on Sept. 15, 1900. The circulation was increased last week \$702,500, making a gain since Aug. 9 of \$2,387,300 distributed among the larger banks. The average daily clearings of the institutions was \$277,-000,000, against \$278,000,000 in the previous

"Nine of the larger banks showed a net contraction of \$7,000,000 in loans, of which one reduced this item by \$2,000,000, one by

bank lost \$2,100,000, one \$1,700,000 and another \$1,300,000. "The low reserves of the banks will most ikely increase the monetary tension during the current week to such extent as possibly to cause even higher rates for money to rule than those of last week. These high rates will, however, naturally offset foreign exchange, causing a fail to points which will permit imports of gold from Paris and perhaps from London. Inasmuch as the secretary of the treasury already has in contemplation an increase of

deposits of public funds in the banks he will most likely decide that the time has arrived when this form of relief to the situation may properly be expended. With the arrival early next week of part of the gold now in transit from Australia, with imports of gold from Europe, which will be stimulated by the monetary conditions and with the relief which the secretary of the treasury will probably afford the existing tension will most likely be speedily re-

EXPORTS AND IMPORTS.

Big Decrease in Both in Eight Months Compared with Last Year.

WASHINGTON, Sept. 13 .- The total ex ports of the United States for the eight months ending Aug. 31 were \$821,685,198, against \$939,329,341 for the same months last year. The imports were \$614,165,387, against \$579,650,755 last year. The excess of exports was \$207,519,811, against \$359,679,585 last year. For this period the exports of breadstuffs from the United States amounted to \$108,-604,576. For the same period of 1901 the to-tal was \$192,860,604. The total exports of provisions were \$109,491,036, against \$124,977,-173 for the same period of the year before. Cattle and hogs were sent abroad to the value of \$15,458,024, while in 1901 the total was \$24,718,408. Exports of cotton for the twelve months ending Aug. 31 were 6,715,793 bales, valued at \$284,279,190, against 6,639,931 bales, valued at \$317,816,429 for the twelve months ending Aug. 31, 1901. The export of mineral oils was valued at \$43,-958,471, against \$45,998,177. Corn, wheat and all other articles of breadstuffs showed heavy falling off, the corn due to the short crop. Corn, for instance, had been sent abroad for the eight months ending Aug. 31, 1901, to the value of \$43,050,354, while for the eight months of this year the total is

DETAILS OF THE ALLEGED GREAT

Pennsylvania and Vanderbilt Interests Reported to Have Divided the Coal Territory.

CLEVELAND, Sept. 13 .- Concerning the alleged financial alliance between the Vanderbilt interests and those of the Pennsylvania system, the Leader further says: "The working agreement has been close in the past, but it has never come to an allotment of territory and division of property between two big houses such as the new agreement entails. The new agreement grew out of a competitive movement of several months ago. The two big interests were mutually interested in the bituminous coal fields, and in the hard coal fields as well. The Pennsylvania system predominated in the former and the Vanderbilts in the latter. By an understanding the Vanderbilts yielded the soft coal fields to the Pennsylvania in return for a similar concession in the hard coal region from the Pennsylvania. The Eastern field was threatened by an invasion, first by the Goulds and later by the Grand Trunk Railroad, and these big financial interests wanted to preserve the territory for themselves and the ties that had been formed by the coal deal were strengthened in the endeavor to protect the Eastern field. The interests of the two big houses were growing gradually together, and soon resulted in an un-

derstanding such as has now been reached. "A short time ago, just before W. K. Vanderbilt went abroad, Mr. Cassatt, the president of the Pennsylvania Railroad, went to New York to call upon him. This is & Western by Nov. 15 and the "Katy" by the meeting of which so much was conjec- Jan. 15. tured at the time, but so little was known definitely. At that time it was agreed to form an offensive and defensive alliance in the East to completely control the situation-and exclude all others from that field except the favored members of the alli-

"The combination of interests makes one of the biggest deals ever seen. To consider the vested rights of the two big houses east of Chicago, to say nothing of their property west of that point, gives them a capitalization of over \$2,000,000,000 and mileage of over 30,000. The organization promises to be the most domineering that has ever been formed. The aim of it is to absolutely control the transportation facilities between Chicago and St. Louis, the great lakes and the Ohio river, and the Canadian boundary and the Potomac river. through to the Atlantic coast. In that territory they will regulate rates and conditions to do about as they please, subject to the interference of the Interstate-commerce Commission, and it is their aim to block the progress of every other road which tries to invade that territory. They are not content with the establishment of a supervision and oversight of the transportation facilities of that territory, but steel mills and all of the elevators for the export and transshipment of grain. The roads included in the combination are the New York Central, the Pennsylvania, the Baltimore & Ohio, the Chesapeake & Ohio. the Norfolk & Western, the Philadelphia & Reading, the Lake Shore, the Big Four, the Michigan Central, the Nickel-plate, the Boston & Albany, the Baltimore & Ohio Southwestern, the Pere Marquette, the Hocking Valley and the Lake Erie & West-

Contract for New Line.

CHICAGO, Sept. 13.-The Rock Island & Paris. Pacific Railway to-day let to the W. R. Stubbs Contracting Company and the Flick & Johnson Construction Company contracts for the construction of its new line of road between Versailles, Mo., and Kansas City, completing the St. Louis and Kansas City line of the Rock Island. The line under contract extends from Kansas City east to Versailles, Mo., and the contracts involve the handling of two and onehalf million yards of rock and four million yards of earth, the boring of three big tunnels and all the bridging, concrete and masonry construction on the entire line. The cost will be about \$3,000,000. This work will be pushed through as rapidly as possible and will give employment to several thousand men and teams. Work will begin at once. The Stubbs Contracting Company has headquarters in Chicago and Lawrence, Kan. The Flick & Johnson Company is located at Davenport, Ia. The new road will be the Rock Island's Kansas City and St. Louis through line.

New Line to Be Opened.

FORT DODGE, Ia., Sept. 13.-Monday morning the Great Western will run a through train from Fort Dodge to Chicago. On that day the New Hampton & Clarion extension will be opened and the day also marks the extension of the Fort Dodge division which will extend from this city to Sumner and from Clarion to Hayfield, Minn. It will be the opening for traffic of what will soon be known as the main line of the Great Western from Chicago to Fort Dodge and from here to Omaha. There will be two daily trains to and from Chicago, as well as a train to and from St. Paul.

To Colonize the Southwest.

ST. LOUIS, Sept. 13 .- A concerted plan to colonize the Southwest is being actively projected by the 'Frisco, the Missouri Pacific, the Iron Mountain, the M., K. & T., the Cotton Belt, the Rock Island and the Santa Fe railway systems, and representa-tives of each will be present at a meeting to be held in this city in a few days, when the details of the project are to be arranged. When the arrangements are completed it is expected that hundreds of thousands of homeseekers will pour into the great Southwest tapped by these roads.

fails in flesh, while her husband grows even more rugged and robust.

There is one chief cause for this wifely failure and that is, the failure of the womanly health. When there is irregularity or an unhealthy drain, inflammation, ulceration or

regularity, dries unhealthy drains, heals inflammation and unceration and cures female weakness. It makes weak women strong and sick women well.

"A little over a year ago I wrote to you for advice," says Mrs. Elizabeth J. Fisher, of Diana, W. Va. "You advised me to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' which I did. and with the most happy result. I was troubled with female weakness and bearing-down pains. Had a very bad pain nearly all the time in my left side, nervousness and headache. Was so weak I could hardly walk across my room. Could not sit up only walk across my room. Could not sit up only just a little while at a time. My husband got me some of Dr. Pierce's medicine and I began its use. Before I had taken two bottles I was able to help do my work. I used three bottler in all and it cured me. Now I do all my housework. It is the best medicine I ever used." The Common Sense Medical Adviser.

female weakness, the general health is soon impaired. Dr. Pierce's Favorite Prescription cures womanly diseases. It establishes

in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
